

AMENDMENTS TO THE SPECIFICATION

Please amend the Abstract of the Disclosure as follows:

~~The present invention aims at providing a~~ sales system and method for selling products by using the Internet, by which occurrence of overheating price competition among suppliers selling the same product can be prevented. ~~The present invention comprises: upon~~ Upon receiving an application for purchasing a product provided by a supplier terminal-3 ~~from a particular user terminal-1 via the Internet, charging,~~ a commission fee is charged from ~~the a~~ user terminal-1; ~~randomly selecting a~~ A price of the product is randomly selected from a plurality of prices within a predetermined price range; ~~and presenting,~~ and the selected price is then presented on the user terminal-1 together with a predetermined term of validity. The user may purchase the product at the presented price, or may not purchase the product if (s)he does not agree with the presented price. ~~By giving a price range to a single product from a single supplier, the price difference among the suppliers becomes difficult to tell, and thus overheating price competition among the stores can be avoided.~~
